Solar Panel Accessories

Various accessories are available to enable connection from the solar panels to many different types of electronic devices.

5 PIECE ACCESSORY KIT

Each cable has a standard SAE Trailer plug on one end that plugs directly to the solar panel.

The accessory kit includes one each: 12V FCLA, 12V MCLA, 4" 2.5mmID barrel plug, set of battery clamps and 8 foot extension cable.

FCLA BARREL JACK ADAPTER

The FCLA Barrel Jack Adapter cable is a 6", 18 AWe zip cord cable with a 7-10 Amp rating. It has a 2.5mmID barrel jack on one end and a 12V FCLA receptacle on the other.

SAE BARREL PLUG ADAPTER

The Barrel Plug Adapter is a 4", 18 AWe zip cord cable. It has a standard SAE two prong connector on one end and a 2.1mmID x 5.5mmOD barrel plug on the other. The barrel plug connects to various electronic devices and battery packs.

The solar charge controllers and battery packs help regulate power input from the solar panels into electronic devices creating a more efficient charge.

SAE Y-CABLE

Need more power? Use the SAE V-Cable to connect two solar chargers together in parallel. This effectively doubles the power but the voltage remains the same. The 18 AWG SAE V-Cable has two 3' ends that branch from a 1' SAE cable.

7 AMP SOLAR CHARGE CONTROLLER

The 7 Amp Charge Controller protects your 12V lead acid batteries from overcharge. This charge controller is to be used with any Global Solar charger over 12W and can handle up to 100 Watts of power. With the attached SAE trailer plug the 7 Amp Solar Charge Controller can connect directly to the solar panel and the remaining SAE trailer plug can connect to anyone of the cables in the 5 Piece Accessory Kit.
